## CERTIFICATION WORKSHEET

| Name |  | Unit |  |
| :--- | :--- | :--- | :--- |

Income Calculations: Multiply the rate by the appropriate number to equal the Anticipated Annual Income. Factor overtime pay, pay increases, and other employment compensation separately. Do not use the total annual income multiplied by one. The intent of this sheet is to show detailed calculations that support the amounts listed on tenant certification.

Sum Total of Columns (b) and (c)
$=\square$

When the Net Family Asset aggregate exceeds $\$ 50,000$ you must include "actual" income on verifiable accounts and "impute" income for all remaining assets where "actual" cannot be verified and combine both amounts. Calculate (line C) or the Imputed Income Amount (Line D).
